SKETCHES SHOW PLACEMENT + MOTION

1. Even the skin — 60 sec

- Use: Natural-matte tint + concealer; match your neck.
- Place: A small pea at the center; tiny concealer dots on shadows or spots.
- Move: Tap to blend. Feather the edges outward.

2. Control shine — 20 sec

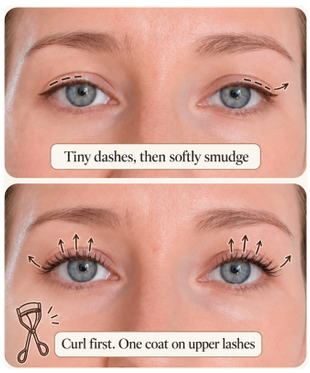

- Use: Translucent or skin-matching powder.
- Place: Center forehead, nose, beside nostrils and chin.
- Move: Tap off excess. Press, lift, move. Leave cheekbones luminous.

3. Define the brows — 40 sec

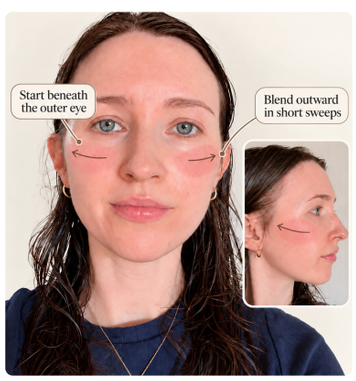

- Use: Neutral taupe or light-brown pencil + clear gel.
- Place: Gaps and tails, following your natural arch.
- Move: Tiny hair strokes. Brush fronts up; tails outward.

4. Define the eyes — 1 min 50 sec

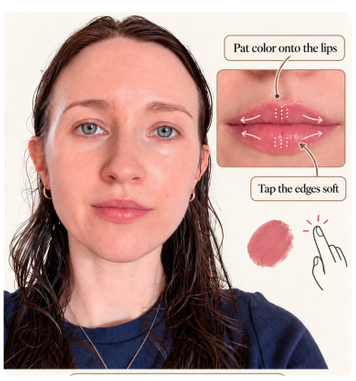

- Use: Brown liner + deep-brown mascara.
- Place: Upper lash roots, from pupil to outer corner.
- Move: Dash, then smudge. Curl before mascara. One coat: center up, outer lashes outward.

5. Add cheek color — 40 sec

- Use: Muted rose powder blush with a hint of peach.
- Place: Fleshy cheek below the outer eye; leave space below lashes.
- Move: Press lightly. Sweep toward the ear with a slight lift.

6. Finish the lips — 30 sec

- Use: Sheer rose lipstick or tinted balm near your lip color.
- Place: Within your natural lip outline.
- Move: Pat from center to edges. Press lips together once.

Prep: let skincare + sunscreen settle before you start.

Touch-up: blot first, then powder only where needed.
